### Backend Development:

- Spring Boot, Express JS, Node JS, Mongoose ODM

### Software Testing:

- Manual Testing, Automated Testing (Selenium Java), Robot Framework

### Programming Languages:

- JavaScript, Java, Python

## ABOUT ME

I am passionate about front-end web development and have undertaken several projects focusing on UI development with React JS, JavaScript, HTML, and CSS. I also enjoy creating online content for my website and YouTube channel. I am currently an Application Developer at IBM, focusing on developing and managing front-end solutions with Angular.

## WORK EXPERIENCE

Application Developer

Aug 2025 - Present

**IBM | Bangalore**

Currently working as an Application Developer where my responsibilities are developing front-end solutions using Angular, managing and optimizing existing UI codebases.

Quality Engineer - FullStack

Mar 2024 - Jul 2025

**IBM | Bangalore**

Worked as a Quality Engineer where I involved in both manual and automated testing (Selenium Java). My responsibilities include designing and executing test cases, identifying and reporting defects, and collaborating with development teams to ensure high-quality software delivery.
